MIRROR PIONEER PASSES AWAY

The news of the death of Horace James Raymer came as a shock to the community, on Christmas night. He had been taken sick some time on Sunday night, and as Dr. K. Mc Leman was in Edmonton, Drs. Demorest, of Bashaw, and Jenkins, of Alix were called to attend on Monday morning. His removal to the hospital at Camrose was decided on and he was taken there in the afternoon, accompanied by Dr. Demorest, and G. W. Kohler, of Mirror, but passed away just after being taken off the train. The deceased had been in indifferent health for the past few years and was subject to periodical attacks of intestinal obstruction and it was one of these attacks that culminated in his death.

The late Mr. Raymer was born in London, Eng., on the 20th of August, 1851, and was therefore over 71 years of age. He came to Canada when quite young and lived first at Galt, then at Woodstock, Ont. Later, he spent considerable time at different points in B.C. and in Winnipeg, Man., finally coming to Mirror in 1911, where he acted as agent for the Transcontinental and Townsville Co., Ltd. While here he carried on a real estate and insurance business, and was a notary public and justice of the peace for many years.

He was identified with many fraternal orders, was a member of long standing of the Odd Fellows Lodge, and was a charter member of Ancient Landmark Lodge, No. 109, A.F. & A.M. This was his first W.M. He has been Mayor for 13 years. On the incorporation of the village of Mirror in 1912, he was elected its first reeve by acclamation and at all times was an active participant in all matters pertaining to municipal work. He was a staunch Liberal in politics, and was a member of the Anglican church.

The remains were embalmed at Camrose and taken east to Winnipeg for burial by his brother Fred, of Calgary. He is survived by his second wife, his first having pre-deceased him a number of years ago; a son and daughter in Winnipeg, a brother in Kelowna, B.C., and a daughter in Vancouver, besides the brother mentioned in Calgary.

The passing away of Mr. Raymer removes one of the landmarks of Mirror, and the friends and people of the community will join in extending to the bereaved members of the family their deepest sympathy.

SCHOOL CONCERT A BIG SUCCESS

One of the best school concerts ever staged in Mirror was a unanimous verdict of the large audience that filled the Grand theatre on Thursday evening of last week. Every number was a headliner, the artists performed their parts in a manner that drew unstinted approval from the audience, and they did not hesitate to express it. J. P. Baugh, principal, acted as chairman most acceptably and announced the following program:

Chorus, "O ! Canada"; acrobats ; chorus, "Santa Claus is here," Intermediate pupils : recitation, Eddie Olding ; flag drill and tableau, Senior girls ; "Lullaby Song," Primary girls ; chorus, "Dear Old Canada," Senior pupils ; recitation, "Chrysanthemum Time," Martin King ; Girls' Jazz Band ; dialogue, "Aunt Jane's Xmas Box," Intermediate pupils : reading, Florence Amundsen, boy, Plymouth and Boxing Stone ; song, "Mock Wedding," Harold Olding ; Joe Tullock, Norman Roy, Fairy dance, Intermediate girls solo, Margaret McLean ; recitation, "If I were Santa Claus," Andrew Tilley ; action song, "Ring-a-ling," Primary pupils ; Boys' Jazz Band ; march, Intermediate girls ; dialogue, "Christmas on the Farm," Senior pupils ; "God Save the King."

The scholars are to be congratulated on their performance, while great praise is due the teachers, Misses E. and F. Amundsen and Mr. Baugh, whose unlimited time and energy they must have expended in preparing Thursday evening's offering.

The proceeds of the concert will be devoted to the purchase of athletic goods for the school.

Mirror 9-Delburne 4

Such was the score in the hockey game played at Delburne on Thursday afternoon of last week. Mirror had little difficulty in taking the Delburnites into camp, and at no stage was the result in doubt. The first period ended with the visitors scoring two, and the home team one second period, Mirror two, Delburne, none third period, Mirror five, and Delburne three. Final score 9 to 4.

Mirror team : Howey, goal ; Steele and Stacey, defence ; Gaudie, King and Yonkey, forwards ; Irwin, spare.

The Delburne team is of the opinion that Mirror's win was more or less of a fluke, and are coming to Mirror on New Year's afternoon to show they have a team as good as Mirror, if not better. That's their view of the matter anyway.

Game starts at 3 p.m. Don't miss it, as this is the first game of the season on Mirror ice.

Moving To Quebec

Rev. Malcolm and Mrs. Peart and daughters Elaine, Patricia and Mary, will leave about the first of the year for Richmond, Que., where the former will take charge of the Anglican parish. Mr. and Mrs. Peart and family have been residents of Mirror for the past three years. Mr. Peart being Rector of St. Monica's. During their stay here they have made many friends who will wish them all success and happiness in their new home.

Bolshevist Plot To Separate India From The British Empire

London.—A full programme for the separation of India from the British Empire has been drawn up by the Federal Republic of India, which will be submitted to the Indian National Congress at the annual session of that organization at Gaya, British India, this week, according to information received.

Great interest in the programme is evinced in every quarter, where it is said to be the work of Bolsheviks. The National Congress in the organization which Mohamed Ali Ghandi headed has already arrested all imports made easy in the year.

The separation scheme, said to have originated with M. Roy, an Indian communist, living in Berlin, employs the familiar conspiratorial terminology. To decline the ministerial responsibility has reached the stage where absence of a definite programme as well as definite action, can no longer be denied.

The ambitious term, "separatism," it says, is open to definition; therefore, a militant programme of action is indispensable in order to mobilize all available revolutionary forces. The theory of "equal partnership in the British empire" is held to be the "gilded wreath of socialism," as may the upper classes, the document says, have been led by H.

The programme goes on to state that British imperialism will never be changed, that the Indian upper classes will remain rigidly conservative, irreconcilable and呈 present and promising future for real freedom.

Therefore, the Indians' immediate task is to invent their own weapons which will bring upon realization of the Nationalists' programme.

The hope is expressed that the most peasant majority and working men will be organized into units and that the ultimate aim of the revolutionaries of the programme, which includes national independence, freedom from all foreign supervision, abolition of the landlord system, confiscation of the large estates, withdrawal of the army and nationalization of the public utilities, which would be owned and operated by the state under the control of working men.

According to the British, Tito's real name is Narendra Nath Bhattacharya, and he has been a fugitive from Calcutta since 1919. This chief, he was accused with the Germans in Java, in 1915, and a Bolshevik propagandist in Mexico. Since 1920, they allege, he has been an agitator in Berlin, Moscow and Tashkent, depending for his livelihood upon work done for the Russian Communists.

Automobile Goes Through Ice

Four Unknown Persons Drowned In St. Lawrence River

Sorel, Que.—Four unknown persons were drowned when the automobile in which they were crossing the St. Lawrence River went through the ice. They had just passed the car of E. Duhamel, of Sorel, who was crossing to Berthier. Duhamel looked round and saw a hole through the ice. There was no cry as the party disappeared. His body was heard to go back to the hole. The wheel marks of the car led straight to it, but there was no sign of the missing car or its occupants.

Captain Faces Grave Charge

San Francisco.—Capt. George MacKinnon, master of the Pacific Mail Passenger steamer Newport, has been accused formally of sailing away and leaving in peril the lame and schoner Svea, which had been stranded near Port San Luis a few days ago. He declares, however, that the Newport, carrying passengers, was in imminent danger and was forced to leave, while the crew of the Svea was safe.

French Government Wants Country to Grow Her Own Breadstuffs

Paris.—"A National Wheat Week" has been organized by the Government for January 23-30 in an effort to encourage the French to grow their own grain for bread and also to develop the colonies by encouraging them to help grow breadstuffs enough for home and colonial consumption.

Farm committees and local publications at which will be exhibited the best methods of selecting seed and of intensive farming; so as to get more and better flour by these means as well as enough breadstuffs.

According to the plan, the best methods of getting a definite programme, as well as definite action, can no longer be denied.

May Relate to Against Dominions

Bombay Bureau of Indian Merchants Is Considering Boycott

Bombay, India.—In furtherance of the action of the corporation of Bomby in passing a resolution a month ago boycotting the boycotting of the various dominions and colonies of the British Empire, so far as selected municipal insurance with any company herein was concerned, the Bombay Bureau of Indian Merchants has appointed a committee to consider a resolution for the adoption of retaliatory measures against the British colonies "where Indians are ill-treated."

The proposed boycott is against banks and insurance companies that are registered in the colonies and are carrying on business in India. It is proposed to expect members of the corporation who are able to give effect to these retaliatory measures.

The institution of the boycott follows closely after the return to India of Sir Horn, Permanent Secretary of State, from his tour among the British dominions in the interests of mutual understanding. Similar meetings aiming at securing mutual civil status for Indians in the dominions is regarded as having been a failure.

Stamp Tax On Receipts

Regulation Governing Receipts of Ten Dollars and Upwards Are Made Known

Ottawa.—The signature of employees on payrolls, being a receipt of payment, is taxable in respect of each signature. The regulations relating to the stamp tax on receipts of \$10 and upwards, effective on and after January 1 next, details of which are made public in an extra edition of the Canada Gazette.

Persons engaged in collecting the stamp tax regulation are liable to a penalty not exceeding \$100, the Gazette states. The regulations follow:

"Receipts—Sales slips and cash register tickets are not taxable, provided no words implying or stating acknowledgement of the receipt or the payment of money appear thereon."

"Payrolls—Signatures of employees theron being receipt for wages, taxes or other amounts due or payable."

"Receipts for payment of legacy are taxable. A receipt for money in a dead or mortgage is taxable."

"Receipts for payment of taxes, except those given to or by the Dominion Government or a Provincial Government."

"Individual freight bills or periodic statements acknowledging receipt of payment, are taxable."

"All insurance policies, whether fire, marine, life or casualty, wherein the payment of money is acknowledged."

"All insurance receipts acknowledging the payment of money are taxable."

"Receipts drawn out of Canada, but not valid until counter-signed in Canada are taxable."

"Voucher checks and checks, receipts endorsed, when drawn and paid to a bank, are not taxable as receipts."

"Remitter's counterfoil, being part of a cheque express money order is not taxable as a receipt."

London.—The United States, at the request of a trade commissioner headed by William Cuno, the German Chancellor, has begun negotiations with Germany and England, looking to the establishment of a basis for the payment of war reparations. It is understood here.

It is reported that England's proposal is that Germany pay to each a sum equivalent to the amount of war reparations paid by Germany to Russia.

Satisfaction In United Kingdom Over Canada's Participation In British Empire Exhibition

London.—Canada's decision to join in the British Empire Exhibition on a scale equal to that of Australia has given great satisfaction in the United Kingdom.

As far back as June 7th, 1920, at a meeting convened by the Prince of Wales, Sir George Perley, then High Commissioner for the Dominion, reported that Canada had agreed to support the proposal to hold the exhibition and pledged whole-hearted support to the project.

But the final decision as to space was eagerly awaited, not only by the Canadian Government, but also by the vast army of supporters of that movement to promote trade within the Empire. That decision—subject, of course, to the satisfactory report of the High Commissioner—has been heartily welcomed.

Will not dispute that the prime necessity of British commerce today is to develop the incalculable resources at its disposal, for better results than to count up the various markets which are now practically closed to it on the continent, and which the Fordney Tariff Act is practically closing in the U.S.A.

In view of the present situation, there is no lack of capital at home, and harassed manufacturers here might well follow the example of some of the leading business organizations of Great Britain, and establish their works in Canada and Australia.

The premier Dominion offers unparalleled prospects in this direction,

he has all the necessities of life within his mighty borders, and he receives no import duty on raw materials, minerals, fisheries are unparalleled.

But further proof of real prosperity is needed, if I am in the official statement that nowhere in the world, with the possible exception of New Zealand, is there a more favorable climate than that portion of Canada which lies within the Great Lakes and the Pacific Coast.

But what Canada wants perhaps should not be immigration, but rather the export of manufactured products.

British manufacturers, as the result of a better knowledge of the potentialities of Canada—which her worthy ambassador to Ottawa, Mr. Arthur Currie, has done much to bring about—will be quick to take advantage of the skilled workers who have helped to build up their businesses at home. This disbursement would provide the Dominion with the class of immigrants she needs to help realize unemployment at home.

Some movement of this kind may take place before the opening of the exhibition in 1924, but in the great Congress of the British Empire, to be held at Newcastle this fall, and related subjects will be fully discussed. One of the most important questions will be that of Overseas Emigration and Land Settlements and a scheme is in contemplation for organizing an international conference in connection with the exhibition to deal with this vital question. In this the co-operation, advice and guidance of the Dominion will be helpful.

Another multitude of subjects of interest to Canada especially will be that of the adjustment of power as understood by scientists. Under the presidency of the Earl of Derby, the First World War Conference, which has been organized by the British Electrical and Allied Manufacturers Association, will consider the national and international adjustment of power.

The subjects for discussion include: Chemistry, Physics, Chemicals, Materials and Research, Power Development (Civil, Electrical, Mechanical, Marine, Mining Engineering), Transport (By Land, Air, Water), Posts, Telegraphs, Telephones, Industry, General Utility, Health and Economic and Financial Power.

In order to deal effectively with this wide range of subjects a Scientific and Technical Board has been formed which includes some of the most famous Professors, Scientists and Engineers within the Empire, and will compare with similar bodies in America, France and Italy.

These two subjects—Immigration and Power—are of paramount interest to Canada. The first she wants, the second she possesses to a limitless degree that only needs development. Her representatives will be here, and a prominent place in a conference that will leave its mark on history.

Roads Cost Millions

Since 1911 the Quebec Government has spent over \$1,000,000 on roads. Out of the total number of roads there were 16,000 miles of main roads, divided into leading highways and county roads.

The Provincial Government has so far built 1,500 miles of leading highways, improved 5,900 miles of county roads, and over 8,000 miles of third-class or local roads.

Only two per cent of the population of Kingston, Jamaica, are white.

Gave Railroad Bridge Away

Lucky Owners Now Sell Structure For \$350,000

Twelve years ago the Pennsylvania Railroad gave away a railroad bridge across the Susquehanna River at Havre de Grace to private interests; the building of a new bridge had made it, and parents, young and old, Automobiles have been crossing the structure in increasing numbers, and the men who got the bridge, for nothing in 1910 recently sold it to the state of Maryland for \$350,000.

And the bridge is still there, the 12 years having passed in the time that they collected \$75,000 in dividends, plus toll charges collected from motor cars.

When the new bridge made the old one of doubtful use, the railroad company offered it free to a railroads, but nobody wanted it, and it remained until it was sold to a high-grade builder, and considered itself lucky in finding a group of Maryland men who consented to accept the structure, which originally had cost \$200,000, as a gift.

The railroad paid \$100 to organize a company. Last year the net returns from the bridge were \$65,000.

The state will continue to collect tolls until 1925, by which date it is expected the bridge will return the bonds issued against the purchase of \$350,000.

What Real Religion Is

Bearing All Others Burdens Says Sir Arthur Currie

In one of his recent addresses Sir Arthur Currie, Principal of McGill University, gave the following definition of Real Religion:

"Religion is the love of God, and

"The religion of man, the love of man."

The religious part of the love of God

"is the love of God, and

Tempus Fugit
Much to the surprise of many of us another year is almost out, and in more ways than one the days are crowding us. The end of the year will as usual find us with tasks which we have no time, with bills for which we have no money and a great many things for which we have no inclination. It was just about the same a year ago. Time flies, we can never hope to keep up with it. It is just as well however that we try to keep track of its movements so that we are not too much at sea. In one respect at least 1922 has kept up to the standard, it has been the hardest year yet, and that's saying a lot. Undoubtedly it has been a trying year for most people; but it is not this true also that at its close it stands the world on a better level of understanding and a better basis of living than before.

The period of '14-'18 is still with us. There seems no escape from it. Unstinted sacrifice has not been enough to make the world over again. Most people drank pretty deeply of that cup, but there is a little in the bottom yet, and like the old fashioned mother with the phys: "It's that that does the good." The times are out of joint, yet there are signs of mending. There seems to be a spirit of infinite patience in the world. Ultimatums are not the style just now, and the spirit of getting together and talking it over seems to make the more popular appeal.

The problems of Europe and Asia seem to be rather remote; the problems of our own little communities are very present.

For us the election of a village council is fraught with a measure of the same importance as a general election at the heart of the Empire. It doesn't matter very much just now whether a Welshman or a Canadian heads the British parliament, but it does matter whether or not the people at the head of our local affairs are good men and true. A march of the unemployed in London doesn't move us very deeply; it is our standard with that of our neighbor that matters most to us. There are a few days left in which to take stock, and in which to try to get square with the world. Let's get busy, and then for a new start. Our little bit of the pie is, most of the time just about what we make it. Here's hoping.

Pays Annual Visit

A. Souter, Inspector for the Department of Municipal Affairs, paid the Mirror village office an official visit on Wednesday of last week.

As there appears to be some misunderstanding regarding the ten months' financial statement which was issued in November, Mr. Souter gave the reason for doing so. It is made out for the purpose of giving the ratepayers an opportunity of sizing up the work of the council for the time that have been in office, and if the statement is not correct, the ratepayers can voice their objection at the annual meeting. The annual statement for the twelve months, i.e., from January 1st to December 31st, appears after the 1st of the ensuing year.

Mr. Souter stated further that the village had done very well during the past year. The council was to be commended for keeping the village clear of debt, and the office work was first-class. His official report will appear in a few weeks.

A whisky drive in honor of Rev. Malcolm and Mrs. Pearl was given by Mrs. E. W. Aylesworth in the Union Building on Friday evening, Dec. 29th.

There were six tables of whisky players and the first prizes were won by Mrs. J. F. Baugh and Jack Parry, and the consolation by Mrs. C. Kabell and J. B. Bell. The whisky prizes were being arranged for lunch, Mrs. Aylesworth presented the prizes to the winners, and also souvenir gifts to Mr. and Mrs. Pearl. Aylesworth, in a remark, expressed regret at their departure from Mirror. Mr. Pearl, replying, thanked the donor for her kindness and said that she had given him suggested reasons for the move to the eastern province. Mr. and Mrs. E. C. Hazell, caterers, served a most delicious meal. At the close of the drive, the guests expressed to the hostess, their enjoyment of a very pleasant evening.
